14-Nation Parley On Laos 'Under Study'

The U.S. State Department last night disclosed in Washington that it is giving "earnest consideration" to a proposal from Cambodia for a 14-nation conference on the crisis in Laos.

The disclosure, by the Department spokesman, Mr. Lincoln White, came on the heels of reports from Phnom Penh, the Cambodian capital, that Prime Minister Khrushchev, President de Gaulle and President Ho Chi Minh of Communist North Vietnam have all accepted the proposal. The conference was proposed by Prince Norodom Sihanouk of Cambodia in letters sent to Western, Communist and Neutralist governments, including Communist China, about a week ago.

The French Ambassador in Washington, however, denied Gen. de Gaulle's acceptance and said that the French Government was studying the proposal.

Another report from Phnom Penh said the two envoys dispatched by the Laotian King and pro-Western Government to persuade Phnom Penh between the Laotian right-wing Government and the Pathet Lao rebels. The Laotian Government warned Moscow that unless the Soviet Union to pro-Communist rebel forces ceased immediately, the Government would be "forced to take up arms" to meet this threat. The warning was sent through the Soviet Embassy in London.

Communist North Vietnam, on the other hand, yesterday denounced as an "act of intervention" the supply of arms to the Pathet Lao by the U.S. and the Laotian Government. (AP, Reuters)

De Gaulle Firm On Plans For Free Algeria

PARIS (Reuters). — President de Gaulle told a Cabinet meeting on Wednesday that his "positive and massive" policy of self-determination, which was approved in last week-end's referendum, would be applied in the letter.

The Cabinet adopted the draft law providing for the organization of provisional institutions in Algeria prior to self-determination. The communiqué said measures provided by this law would be decreed later.

The first thing Gen. de Gaulle will want to know is whether the Algerians plan to apply the attitude of the insurgent leaders, now meeting in Tunis, to the case of him said yesterday.

If the insurgents hold back, the President would concentrate on setting up the institutions of a new and Algerian Algeria without them, these sources said.

Heavy Rains Raise Hopes of Farmers

Rain was the order of the day in all of Galilee, the coastal plain, Jerusalem and as far south as Ashkelon, as farmers in those areas saw new hope for their winter crops.

The heaviest rainfall recorded in the 24-hour period ending at 5 o'clock last night was in Ekron, which reported 30 mm., followed by Lydda Airport, with 29 mm.

In the Galilee, Arab villages reported the rain assured the success of 250,000 dunams of winter crops sown only three weeks ago. One bearded veteran of Ikval village smiled.

"Allah is merciful. The Galilee has found favour in his eyes."

In Bnei Brak and Rishon LeZion the rain caused flooding in some ground floor apartments and fire brigades had to be called in to pump out the water.

(Damascus Radio reported that roads near Damascus were cut off yesterday by floods caused by downpours. The radio said that 30 cms. of snow fell in high-altitude regions of Syria.)

UN Sends More Troops in Bid To Prevent Katanga Civil War

ELISABETHVILLE. — Another battalion of U.N. troops is being rushed 500 kms. north to the Manono area of northern Katanga, where civil war is threatened, a U.N. spokesman said yesterday.

The threat follows the arrival in the province over the week-end of 600 men loyal to Mr. Patrice Lumumba, Congo's first Prime Minister, now under detention.

A U.N. spokesman said the first objective of the 600-strong battalion, consisting mainly of Moroccans, is to contain the present situation and prevent any outbreak of civil war.

There are already about 200 Nigerians in the area and their British commanding officer, Brigadier Paul Ward, is to make another attempt to persuade the invaders to leave.

An earlier attempt by Brigadier Ward shortly after the pro-Lumumba force arrived had not met with much success, the U.N. spokesman said.

The announcement that the new troops were being sent came after the Katanga Defence Minister, Mr. Joseph Yav, told the population in a broadcast that "the fate of our country is now in the hands of the army."

Ultimatum Expires

His statement of the expiry of an ultimatum by the Premier of the breakaway province, Mr. Moise Tshombe, that if the U.N. did not remove the pro-Lumumba force he would "take any action he deems fit."

Any operation launched against Manono would mean running the gauntlet of Baluba tribesmen, hostile to Mr. Tshombe, for about 150 kms. before coming to grips with the invaders. An airlift would be equally difficult.

Brazzaville Radio said Tuesday night that Mr. Prosper Thumba, a Minister in the original Lumumba Government, and Mr. Emy Mwanba had established a new province in Katanga known as Lualaba, with its capital at Manono.

Observers here believe that the Katanga Government is torn between making an immediate attack on the pro-Lumumba force and adopting a wait-and-see attitude.

The U.N. Security Council will meet in New York today to discuss the Congo at the request of the Soviet Union, which has charged Belgium with fresh acts of "aggression." (AP, Reuters)

Pro-Castro Riots In Latin America

MONTEVIDEO (AP). — Police on Wednesday raided the Communist Party headquarters and arrested 131 Communist leaders. The arrests were made as the Uruguayan Government launched a crushing drive against a leftist pro-Castro campaign.

As tension gripped the city, the Communists announced new demonstrations for Wednesday night and today. These were aimed against the carrying out by Uruguay of a possible diplomatic break with the Castro regime.

The reopened pro-Castro campaign here — described by many officials as "openly subversive" — broke out Tuesday night in violent street demonstrations. One man died and dozens were wounded and some 50 more were detained. This brought arrests to nearly 300.

Uncle Sam Burned

In Buenos Aires, Argentina, pro-Castro groups demonstrated late Tuesday night, burning effigies of Uncle Sam, breaking a window of the U.S. Information Service and stoning a branch of the First National City Bank of New York. About a dozen persons, including four women, were arrested.

In Mexico City, police dispersed several hundred protesters demonstrating on Tuesday before they could march to the main city square.

The Castro Government announced yesterday that Mr. Charles Harman, Chief of the Press Department of the Soviet Foreign Ministry, had arrived in Cuba for an official visit.

Manufacturers Meet; Sapir's Reserved Backing on Dismissals

Jerusalem Post Reporter. — Commerce Minister Pinhas Sapir last night found himself backed with reservations by the Manufacturers' Association in its renewed argument with the Histadrut over "efficiency dismissals."

This occurred at the crowded opening session of the biennial national convention of the Manufacturers' Association at the Z.O.A. House here.

The Chairman of the Association Executive, Mr. Yehuda Bar Natan, addressed the assembly in a message.

Mr. Bar Natan, who is also head of the Histadrut, said that the Manufacturers' Association does not exist merely to sit back and content itself with being merely a club of respectable businessmen.

The Manufacturers' Association cannot afford to sit back and content itself with being merely a club of respectable businessmen. The Manufacturers' Association cannot afford to sit back and content itself with being merely a club of respectable businessmen.

B-G to State Own Views To Mapai Committee Today

Jerusalem Post Political Correspondent. — Prime Minister Ben-Gurion will address the Mapai Central Committee today in order to state clearly his own views on the "Affair," which so far have been largely reported indirectly. His statement is expected to be both sharp and to the point and to deal mainly with four issues:

• The need for a legal enquiry into the "Affair";

• The work of the Seven-Man Ministerial Committee;

• Mr. Pinhas Lavon's statements during the past three months in connection with the "Affair" and the damage he says they caused to the good name of Israel and its defense forces;

• Mr. Lavon's actions as Minister of Defense during 1960.

Mr. Ben-Gurion's address to the Committee is to be preceded by a 5,000-word statement on the "Affair" which is to be issued to the press and is expected to be similar in content. The Prime Minister stated first since in his opinion the "Affair" is not chiefly a party matter but concerns the nation as a whole. In his address to the Committee, however, Mr. Ben-Gurion is likely also to deal with those aspects of the "Affair" which directly concern the Party.

The Mapai Secretariat yesterday held two sessions here together with members of its Knesset Faction executive. At the beginning of the second session which started at 9.30 p.m., it was decided to convene the Central Committee today.

The Secretariat was expected to sit until the early hours of the morning, since the majority of its members were understood to be determined not to adjourn before adopting a resolution. Their decision is expected to represent some compromise between two draft resolutions that were submitted to the Secretariat at the beginning of its first session at 4 p.m.

One resolution, understood to have been submitted by the Minister of Agriculture, Ahuf Moshe Dayan, and Mr. Akiva Govrin, M.K., Chairman of the Mapai Knesset Faction, said simply that the Secretariat would decide to call Mr. Lavon to account for his statements made to the Knesset Foreign Affairs and Security Committee in connection with the "Affair."

The other resolution, presumably submitted by the Minister of Commerce, Mr. Pinhas Sapir, called for a more detailed enquiry into the "Affair" and for a more detailed enquiry into the "Affair" and for a more detailed enquiry into the "Affair."

Soviet Communists Plan Biggest Ever Party Congress This Year

MOSCOW (Reuters). — The Soviet Communist Party's Central Committee got down to business discussions on agricultural problems yesterday with speeches by Mr. Dmitri Polyansky, Premier of the largest Republic, the Russian Federation, and Mr. Nikolai Podgorny, party chief in the Ukraine.

According to preliminary reports, Mr. Polyansky claimed the state and collective farms were doing well, but some shortcomings and the need for their elimination.

By far the most important action taken so far by the plenum is a decision to hold, on October 17, the most representative congress it has ever convened.

One delegate will be elected from every 1,000 full and candidate members of the party, which on the basis of a total membership of about 4.25 million means some 4,000 delegates will gather in Moscow.

Thus the Congress will embrace some three times more members than either of the two previous congresses. The agenda, published yesterday, included its main items will be adoption of a new programme, election of a new Central Committee and party leadership, which is mandatory at each ordinary congress, and discussions of the party charter.

K to Talk. — Mr. Khrushchev will deliver two important speeches, on the Central Committee report and the new programme.

Changes in party rules will be introduced by Mr. Podgorny, who became one of five Central Committee Secretaries last May.

The fact that he has been chosen for this task shows his present high standing in the party and indicates that he has taken over the detailed work of party organization previously exercised by Mr. Alexei Kirichenko.

Mr. Khrushchev is being groomed for the eventual succession to Mr. Khrushchev, who is reported to be fit at present. He is stated to suffer from a high blood pressure, with the attendant possibility of a heart attack.

'Greece Can Learn from Israel' About Development, Economics'

"Greece has much to learn from Israel in the development and economic fields," a leading Greek parliamentarian, Mr. Giorgos Mavros told The Jerusalem Post in an interview this week.

During his eight-day stay here, a guest of the Knesset and the Foreign Ministry, Mr. Mavros toured the country and met with Foreign Minister Golda Meir.

The visit of water experts from the Tahal Water Company a few months ago to advise Greek water authorities on the national water plan should expand to greater cooperation in economic, technical, cultural and scientific fields, Mr. Mavros believes.

Mr. Mavros was a Minister in Greek cabinets in 1945-46 and 1949-52, when he held portfolios of Defense, Economic Coordination, Finance, and Justice. He was previously Assistant Professor in International Law at the University of Athens. He is now a member of the Opposition, liberal "New Political Movement."

Number One Headache

"Israel could show Greece how to tackle its number one headache," Mr. Mavros said. He was specially impressed by the organization of the citrus marketing Board, which ensured central packaging and a unified policy in exporting a staple product. He also believed that Israel's town planning techniques could be adopted in his country. "Our basic problem is the concentration of population in Athens. It is estimated that in 30 years time Athens will have a population of seven millions out of a nation of 12 millions," he noted, adding that administrative and industrial decentralization was the answer to this drift to the capital. He left yesterday morning for a two-day visit to Cyprus before returning home.

US-Israel Tax Accord For Senate Action

WASHINGTON (Reuters).—President Eisenhower yesterday asked the Senate to ratify separate tax conventions signed with Israel and the United Arab Republic. The convention with Israel for the avoidance of double taxation on income and the encouragement of international trade and investment was signed last September 30. The convention with the U.A.R. for the avoidance of double taxation and the ending of tax evasion and the elimination of obstacles to international trade was signed on December 21.
